JOHN BODGER & SONS Co.

California's Choicest Flower Seeds

EL MONTE, LOS ANGELES COUNTY, CALIFORNIA, U. S. A.

February 1, 1929.

Dear Sirs:

Again the time has come for the seed-grower to solicit business for the coming season.

EXPERIENCE COUNTS

For forty years we have been growing Flower Seeds in California. We have gradually increased our acreage to keep up with the growing demand. Three years ago we reorganized our staff and added extensive experimental grounds to enable us to keep up with the production of novelties, and the selection and testing of desirable flowers we have brought together from various parts of the world.

BUILDING FOR THE FUTURE

The merging of our general offices with our production department in our new administration group at El Monte has proved useful for better service to our customers this Fall, and we are confident of the increasing value of a concentration of forces.

FLORIST MONEYMAKERS

Our production department is specializing in the production of high-class florists' seeds. We respectfully refer you to the various items we have listed: viz., ANTIRRHINUMS, CALENDULAS, DELPHINIUM, GERBERAS, LARKSPUR AND PERENNIAL SCABIOSAS, all of which are in great demand among florists.

INTRODUCING THE "PERMANENT GARDEN" IDEA

We have also added a number of items to our lists of ROCK PLANTS and PERENNIALS. These are proving profitable lines for seedsmen who are fostering the plan to encourage the planting of permanent gardens.

BETTER HOMES DEMAND BETTER GARDENS

ASTERS and ZINNIAS still lead as our best sellers among Annuals. This season's crop will be grown from greatly improved stock seed, the reward of diligent work in the Experimental Grounds. Our sales of SWEET PEAS have increased proportionately. New creations have revived old interests, and we have planted to meet the demand. Many other meritorious ANNUALS have been added.

PICTORIAL CATALOGUES SELL SEED

We especially wish to call your attention to our photograph department, which we hope to extend and greatly improve in the coming season.

OUR BUSINESS IS GROWING -- BUT "GROWING" IS OUR BUSINESS

Our plantings are being increased proportionately to the demand, and we are expecting a good season. However, the harvest is always speculative, and to insure against unforeseen shortages, we urge our customers to send in their anticipated contracts as early as possible. By so doing, we are able to cope with the routine of the Flower Seed business before the rush of harvesting and shipping commences.

MAY WE NOT GROW FOR YOU?

Thanking you for your liberal patronage in the past season, and hoping for mutual prosperity in the coming year, we are,

Yours very truly,

JOHN BODGER & SONS COMPANY,

By JOHN C. BODGER, Sales Manager.

N. B. The enclosed price-list is for 1929 crop. Please refer to 1928 general and novelty lists in ordering for immediate delivery. We are in a position to fill additional orders on practically everything at the present time.

BODGER'S

Unrivalled Flower Seeds

We take pleasure in presenting to our customers this season an extensive price list, covering Flower Seeds for florist and general use.

All of the old favorites are included, as well as novelties, and this year we have added various sorts of Flower Seeds not previously grown in the United States, to accommodate those of our customers who wish to entrust us with a general order.

"GROWING OUR OWN"

It is our policy to grow our own FLOWER SEEDS, personally, on our own land. We are nearer to the complete realization of this ideal today than we have ever been before. Besides our large acreage at El Monte, we have established a growing station at Lompoc, California, where we grow Sweet Peas and many spring annuals which thrive in that locality.

The advantage of this concentration of effort and consequent elimination of conflicting standards is incalculable. To this policy of "Growing Our Own," we lay our reputation for reliability, and such distinction as we have gained in the field of floriculture.

OUR GOLD MEDAL DAHLIA FLOWERED ZINNIAS

The Royal Horticultural Society of England recognized our DAHLIA FLOWERED ZINNIA as a distinct advance in flower culture, by the granting of an "Award of Merit" for the strain and a Gold Medal for the group exhibited in the London Show in July, 1924. This recognition came as a culmination of ten years of effort to improve and popularize the Zinnia.

We take this opportunity to thank our many friends for their liberal patronage during the past season. We earnestly hope that the quality of our seed and the prompt SERVICE which we are endeavoring to extend to all will warrant a continuance of this support.

— A Generation of Service —

Novelties

We will send you our illustrated Novelty List for 1929-30 next August when we hope to have many new and interesting items including several new colors in Dahlia Flowered and other Zinnias. It is very gratifying to notice the liberal response to our Novelty List of the past season, especially the following which have received world-wide distribution:

Larkspur, La France
Calendula, Campfire
Eschscholtzia, Ramona
Petunia, New Dwarf California Giants "Ramona Strain"
Scabiosa Caucasica, Giant Hybrids (Isaac House Strain).

Calendula Campfire, being an exclusive forcing variety, has already received recognition from some of the largest users as being the largest and most valuable Orange Calendula for forcing purposes. We are looking forward with confidence to getting similar reports on the other items when they come into bloom, especially Larkspur La France which we consider the most outstanding novelty of the past season.

Perennial and Rock Plants

The demand for Perennials and Rock Plants suitable for the United States, Australia and other countries of similar climates is rapidly increasing. For many seasons we have made extensive trials and selected what we consider to be the best for general use. For the convenience of our customers, we have grouped together on pages 65-67 of this catalog what we consider a standard collection of both Perennials and Rock Plants. We call attention to the fact that these have been grown long enough to become adapted to American climates and we sincerely hope our customers will take advantage of the pioneering we have done along these lines.

Photographs

ON ACCOUNT of the rapidly increasing demand for better photographs to stimulate the sale of the newer and more desirable flowers, both annual and perennial, we have decided to put a photography department in our organization. We are now busy photographing good specimens of as many varieties as we can photograph at this time and will continue to do so throughout the season as the flowers come into full bloom. Mr. David J. Sheahan, now in charge of this department, has established his headquarters at our El Monte plant. Mr. Sheahan, who is well known on the Pacific Coast, has had many years practical experience as a camera pictorialist and is also an expert in color photography. Before the season is over we hope to have a very large and complete line of photographs for you to select from. If you are interested in getting photographs of varieties in this list, or any other specimens, field views, landscapes, etc., we urge you to get in touch with us. We are prepared to sell the sole rights to any of our customers who may wish for their exclusive use, providing they will give us the order in advance. It is our belief this department will greatly aid our customers not only in stimulating the sale of flower seeds from year to year, but in keeping abreast of the growing demand that is made upon the seed trade by the buying public.

ASTERS

We have under cultivation a large tract of land of an alluvial and peat composition which is sub-irrigated from mountain springs.

In this soil, we are able to grow Asters with a minimum of trouble from the diseases common to this plant. Usually there is no rain in Southern California from planting time until harvest. Seed grown under these conditions is of high vitality.

Conditions are thus ideal for us to carry out our program of rigid roguing. Our care in reselection has enabled us to improve old varieties and to establish new types.

NEW ASTERS OF OUR OWN PRODUCTION IMPROVED GIANTS OF CALIFORNIA A Novelty of Great Merit

Knowing that great improvement had been made in this pleasing type since its introduction to the trade, we highly recommended it in our 1927 contract offer. Visitors to our farms the past year confirmed our high opinion of this outstanding novelty. It has not only received favorable mention by the Royal Horticultural Society of Great Britain, but has been awarded prizes and awards of merit whenever exhibited in Flower Shows in various parts of the world. This remarkable Aster bids fair to become a universal favorite.

Characterized by the well-known Crego or Ostrich Feather type of flower, combined with the Beauty Aster's long, non-lateral branching stems and sturdy habit of growth, the California Giants Double type of Aster stands at the head of the list, not only for florists' use, but also for private gardens where quality is appreciated. Careful selection has not only perfected this type but has enabled us to extend the color range. The White is exceptionally large and distinctive. Peach Blossom is quite distinct from any of the other colors. It opens as a white and flushes pink when in full bloom, presenting a variety of delicate peach blossom shades on the same plant. Light Blue is an exceptionally fine florists' flower; the color, although delicate, has a sufficient degree of intensity to please the most critical eye. Rose is a very rich deep shade, similar to Aster Beauty Bright Rose. The favored florists' colors are thus fully represented.

Under date of August 21, 1927, the Horticultural Trade Journal of London, England, quotes the following on **Giants of California**:

"Bodger's California strain of Asters is ideal for growers of cut flowers; the flowers measure up to six inches across, packed with broad petals, and may be grown with stems 30 inches long. It is truly an aristocrat amongst Asters, vying with well-grown Chrysanthemums in size of flower and length of stem."

	Per oz.	Per ¼ lb.	Per lb.

ASTERS—Continued

BEAUTY TYPE

We have noted with pleasure the steadily increasing popularity of the Beauty Aster as a florist's flower. The colors are good, and their keeping qualities unsurpassed. They are excellent shippers and are rapidly superseding American Branching for general use.

EARLY BEAUTY

This type has all of the characteristics of the Late Beauty Type, and is valuable for locations where the season is too late to flower the late type before frost, and for early forcing.

We wish to emphasize, however, that this is not an Early Aster as compared with Early Express or Queen of the Market, but earlier than the Late Beauty Type which is the latest of all Asters. Planted at the same time this type flowers with the Crego and American Branching. Please note we have added three colors to this type.

	Per oz.	Per ¼ lb.	Per lb.
-----Azure Fairy, azure blue or dark lavender.....	.75	2.50	8.00

----- Finest Mixed -----	1.50	5.00

Single Type

Single Giants of California

We offered this wonderful Aster for the first time last year. It was developed out of the Double Giants of California type. The flowers are large, measuring three to four inches across, with stems 18 to 24 inches in length. The petal has a slight twist, which adds a piquant touch to its beauty. The white blossoms resemble Shasta Daisies in appearance, but their greater length of stem makes them more graceful and better adapted to florists' use. In the garden, the Single Giants of California add a charming note of simplicity among the fuller types of Asters. We believe this new, single type of Aster is destined to become very popular.

---	------	-------

ASTERS have been one of our specialties for the last twenty years. By applying the most advanced scientific methods in our Experimental Grounds, we are able to keep our stocks up to the highest standard. Our firm has to its credit the originating of the **Beauty** type. We also assisted in popularizing the **Giants of California**. The name, "Tree Aster" has been applied to both these types, because of the height of the plants and the length of flower stems, which make them invaluable for cut flower use.

We grow on our own farms more than two hundred acres of **Asters**.

ZINNIAS

BODGER'S GOLD MEDAL DAHLIA FLOWERED

In July, 1924, the Royal Horticultural Society of England granted an "Award of Merit" for the strain, and a **Gold Medal** for the group of Dahlia Flowered Zinnias exhibited in the London Show. This official recognition of the strain meant much to its originator, our late president, John Bodger, who had put forth the best efforts of his last years in perfecting this type.

A silver medal awarded by the Royal Horticultural Society in August, 1927, is evidence that the Dahlia Flowered Zinnia is maintaining its place among worth while strains.

The large size, fullness of petals, extraordinary color range, and good keeping qualities of this flower have all contributed to its popularity. It is easily grown, and keeps well when cut. It is at present immune from disease. Equally good as a garden flower and as a florist's specialty, its popularity should increase with years. It has been truthfully called "A NEW FLOWER FOR THE PEOPLE."

A Florist's Moneymaker

This type is proving a good forcer among the florists. Polar Bear is forced and used extensively as a bunching flower for Mother's Day, while Exquisite, Old Rose, Golden State, Crimson Monarch and Canary Bird are specially recommended to force as desirable colors for florists for early Spring trade.

To assist in visualizing the true color, we have inserted, parenthetically, Ridgeway's Color Chart descriptions.

The following varieties are reselected, field-grown stock and are greatly improved over previous offerings:

-----EXQUISITE—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose.)

-----OLD ROSE—This is adequately described by its name, as it is of the real Old Rose Shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.

-----ILLUMINATION—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose).

-----GOLDEN STATE—A very rich orange yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.

-----CRIMSON MONARCH—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.

ZINNIAS—Gold Medal Dahlia Flowered—Continued

- SCARLET FLAME—A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.
- METEOR—A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with good depth of petal. Very large and more floriferous than other reds.
- LEMON BEAUTY—This is next to Crimson Monarch in size and form. It may be described as a golden yellow on brown. Decidedly a pastel shade, and should be in every collection. (New).
- ORIOLE—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.
- DREAM—A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias.
- PURPLE PRINCE—A fine, deep purple (Rhodanthe Purple) large and well-formed. (New.)
- POLAR BEAR—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.
- BUTTERCUP—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.
- CANARY BIRD—A delicate shade of primrose—very large and holds its color well until out of bloom.

-----SPECIAL GOLD MEDAL MIXTURE—

	Per oz.	Per ¼ lb.	Per lb.
A well blended mixture containing all the above novelties-----	1.25	3.00	10.00

- ALL COLORS MIXED—While this mixture may not contain such a variety of colors as the Special Mixture, its color range is very good; it has been thoroughly rogued in the field for type and size of flower-----
- | | | |

| .85 | 2.00 | 6.00 |
|-----|------|------|

Extra Fancy Mixture of all largest flowered types, principally Dahlia Flowered and Giant Mammoth. This mixture contains many colors not existing in ordinary strains and comes from the many thousands of pedigreed lines we are following for the production of new and desirable colors in Zinnias.

Per Oz., \$2.00	Per ¼ Lb., \$5.00	Per Lb., \$18.00
-----------------	-------------------	------------------

ZINNIAS—Continued

GIANT MAMMOTH TYPE

or California Giants

We introduced this type in 1926, being convinced it was a type that would become a favorite. This is a mutation from the Dahlia Flowered type and the general approval in the past two years has encouraged us to go further into the development of this for florists' and general use. The great advantage of this type is that the very large flowers are imbricated and flat, getting away from the conical type of the Giants and eliminating the stiffness that has been so objectionable in Zinnias in the past. The flowers from the time they open are attractive, making them a good cut flower from the early bud until they are in full bloom. They are twice the size of the ordinary Giants.

	Per ¼ lb.	Per lb.
-----Cerise Queen, beautiful cerise rose-----	2.50	8.00
-----Enchantress, color same as Exquisite in Dahlia Flowered type-----	2.50	8.00
-----Lemon Queen, lemon orange-----	2.50	8.00
-----Miss Wilmott, soft pink-----	2.50	8.00
-----Orange King, cadmium or burnt orange-----	2.50	8.00
-----Orange Queen, golden yellow-----	2.50	8.00
-----Pink Profusion (new), delicate shrimp pink, very large-----	3.00	10.00
-----Purity, white-----	2.50	8.00
-----Rose Queen, striking bright rose-----	2.50	8.00
-----Scarlet Gem, glowing scarlet-----	2.50	8.00
-----Finest Mixed-----	2.00	7.00

PICOTEE TYPE

The Picotee Zinnia, introduced by us in 1919, differs from other types in that each petal is outlined by a contrasting color which harmonizes with the body of the flower. The form and color range are similar to the Giant type, but the size is between the Giant and Pumila types. They are useful to provide variety in that portion of the garden devoted to Zinnias, but they are especially adapted for use as cut flowers. They reproduce about 70% true.

-----Golden Pheasant—Gold ground tipped with maroon-----	3.00	10.00
-----All colors mixed, including new colors from white to scarlet-----	2.50	8.00

QUILLED TYPE

-----Victory Choice Mixed—including several new colors; this variety has been greatly improved in size and range of color this year-----	2.50	8.00
-----Achievement, Mixed-----	2.50	8.00

ZINNIAS—Continued

DOUBLE GIANTS

(Improved Grandiflora Robusta)

The Giants are still very popular on account of their bright colors. For those who do not wish to list all the various shades we have picked out the twelve most popular colors and best all-around favorites of this type, as follows:

	Per ¼ lb.	Per lb.
----- Bright Rose -----	2.00	6.00
----- Buttercup -----	2.00	6.00
----- Burnt Orange -----	2.00	6.00
----- Canary Yellow -----	2.00	6.00
----- Crimson, best red -----	2.00	6.00
----- Deep Flesh -----	2.00	6.00
----- Deep Salmon Rose -----	2.00	6.00
----- Purple -----	2.00	6.00
----- Salmon, light salmon rose -----	2.00	6.00
----- Scarlet -----	2.00	6.00
----- Shrimp Pink -----	2.00	6.00
----- White -----	2.00	6.00

Other Colors and Mixtures:

----- Apricot Orange -----	2.00	6.00
----- Buff -----	2.00	6.00
----- Cardinal -----	2.00	6.00
----- Cream -----	2.00	6.00
----- Deep Rose -----	2.00	6.00
----- Golden Yellow -----	2.00	6.00
----- Lavender -----	2.00	6.00
----- Light Flesh or Blush Pink (not a florists' color) -----	2.00	6.00
----- Light Canary (apricot yellow) Distinct from Canary and Buttercup. Very desirable -----	2.00	6.00
----- Orange -----	2.00	6.00
----- Rose King -----	2.00	6.00
----- Ruby Red -----	2.00	6.00
----- Sulphur Yellow -----	2.00	6.00
----- Violet -----	2.00	6.00
----- Special Mixture of finest colors, including many trial ground varieties not contained in the regular mixture -----	1.50	5.00
----- Special Mixture All Pink Shades. (This is a special mixture from our trial grounds, intended for florists' use.) -----	1.50	5.00
----- All Colors Mixed, well balanced, per 100 lbs., \$350.00 -----	1.25	4.00

Elegans Pumila Dwarf Double The Best Bedding Variety

----- Bright Scarlet -----	1.00	3.00
----- Canary Yellow -----	1.00	3.00
----- Dark Scarlet (Kermesina) -----	1.00	3.00
----- Fireball -----	1.00	3.00

ZINNIAS—Pumila Type—Continued

	Per ¼ lb.	Per lb.
-----Flesh-----	1.00	3.00
-----Golden Yellow-----	1.00	3.00
-----Salmon Rose, a pleasing shade used by florists in basket work-----	1.25	4.00
-----Snowball-----	1.00	3.00
-----White-----	1.00	3.00
-----All Colors Mixed-----	.60	2.00

Elegans, Tall Double

-----Black Knight, deep maroon-----	.60	2.00
-----Finest Mixed, per 100 lbs., \$175.00-----	.60	2.00
-----Curled and Crested, reselected finest mixed-----	1.25	4.00
-----Striata, finest striped mixed-----	1.25	4.00
-----All Sorts Mixed, per 100 lbs., \$150.00-----	.60	2.00

Elegans, Lilliput

Small Double Flowers for Borders

In recent years we have devoted much time to reselecting and "trueing up" of this type of Zinnias, with the result that they are replacing the Dwarf Pumila type for bedding and cut flower purposes. Salmon Rose and Crimson Gem are especially useful to florists. We recommend the following collection, all distinct colors.

-----Canary Yellow-----	1.50	5.00
-----Crimson Gem-----	1.50	5.00
-----Golden Gem-----	1.50	5.00
-----Salmon Rose-----	1.50	5.00
-----Scarlet Gem (Red Riding Hood)-----	1.50	5.00
-----White Gem-----	1.50	5.00
-----Finest Mixed-----	1.25	4.50

Haagaena (Mexican Hybrida)

-----Double Mixed Colors, fine-----	2.50	8.00
-----Perfection, Single Star: Yellow-----	1.75	6.00
-----Perfection, Double: Yellow, select-----	1.75	6.00

Sanvitalia

-----Procumbens Double-----	1.75	6.00
-----------------------------	------	------

This is a low border plant sometimes called creeping miniature Zinnia.

CALENDULA

Double

-----Campfire-----	3.00	10.00
--------------------	------	-------

Campfire, introduced by us last season, has proven to be the best forcing orange Calendula on the market. The flowers are extremely large and very dark orange with a scarlet sheen, making them most attractive. This strain has been carefully selected and will produce very strong stems with few buds on them, which gives the advantage for forcing purposes. We are looking forward to a very large sale of this type during the coming season.

CARNATION

Chabaud's Giant Double

Our plantings this year were so exceptionally fine that we again lay stress on the importance of listing this type of Carnation. By special selection we have greatly increased the size and otherwise improved this strain. In our judgment it is the best Carnation now on the market, produced from seed. We, therefore, highly recommend it.

CARNATION—Continued

Perpetual		
.....Englemann's Gold Medal, finest mixed.....	Per ¼ oz. 5.00	Per oz. 15.00

 We wish to advise that we have the sole American agency for these famous Carnations which are produced and sold in such quantities by Mr. Englemann on the London market. We are growing these on our farm from seed produced on the plants, the flowers from which won the sweepstake prize at the Chelsea Show in 1925. They reproduce from seed very satisfactorily and throw better than 80% double flowers.

MYOSOTIS

-----Alpestris (Forget-me-not) Blue-----	1.50	5.00
-----Alpestris Mixed-----	1.25	4.00

 For the information of our new customers we will state we have devoted seventeen years to the improvement of existing types of Zinnias, and the originating of new and popular types; such as, PICOTEE, VICTORY QUILLED, CALIFORNIA GIANTS and DAHLIA FLOWERED. The rapidly increasing demand for these improved types will necessitate our planting over three hundred acres this year.

This season we have devoted ten acres of our Experimental Grounds exclusively to the development of our new varieties of Zinnias. By using the most up-to-date scientific methods we are not only enabled to keep our present novelties up to standard but are in a position to put on the market important new developments in this popular flower. Every year we are adding new colors, increasing the size and perfecting the form of the Zinnia.

Bodger's Zinnia Seed will assure you satisfaction. The discriminating buyer knows that the best is always the cheapest in the end.

	Per oz.	Per ¼ lb.	Per lb.
-----New Giant Hybrids (Isaac House Strain)-----	3.00	10.00	38.00

Last year we introduced this wonderful improvement in perennial Scabiosa and recent reports lead us to believe they are making an accounting for themselves as a florists' cut flower. They are more vigorous in their plant growth, having longer and stouter stems with the average size of the flowers more than a third larger than the best strain of Caucasica we have heretofore seen. The outer edges are ruffled and fringed and the colors range from a very light lavender to a dark blue, giving the range of color necessary for general florists' use. We highly recommend this strain not only for florists' use but for the retail business where fancy stocks are required.

SCABIOSA COLUMBARIA ANTHEMIFOLIA

This is a South African form of the European Scabiosa and although reminiscent of Caucasica, is a distinct type. There is a decided place for this on the perennial list, as well as on the florists' cut-flower list. It can be briefly described as a hardy, low growing perennial with fine, light-green foliage, some of the flowers measuring from two to two and a half inches across with short, compact petals, borne on long, slender but strong stems. It is proving to be a valuable florists' cut flower. We offer this in two favorite colors—pink and lavender. We consider Columbaria a valuable addition to the perennial list, especially the pink shade which is a new color for Perennial Scabiosa.

Mammoth Early Branching Nice

This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use.

If sown early, they come into flower as early as Dwarf Ten Week varieties; the flowers are larger, and the branching habit renders them invaluable for florists.

**Bodger's Unrivalled Seeds—the "buy" word
of the discriminating Seedsman.**

CONTRACT FOR 1929 CROP

-----, 1929

Between JOHN BODGER & SONS CO., El Monte, Los Angeles
County, California

And-----

JOHN BODGER & SONS CO. agree to plant sufficient land under normal conditions, ordinarily to produce the amount of seed named hereafter, at prices indicated, and will deliver the seed at nearest terminal point in California as soon as practicable after harvest, seed to be in good merchantable condition, as defined below.

"In good merchantable condition" is understood as meaning seeds properly cleaned for seeding purposes, approximately free from foreign seeds distinguishable by their appearance, and of a germination equal to the fair average germination of the crop of the current year.

We reserve the right to advance any or all prices in this list on orders received after May 1st, 1929.

JOHN BODGER & SONS CO. will accept contracts only as long as the condition of the crops is favorable enough to justify their accepting same. In case of partial or total failure of any or all crops planted, or in case of damage to, or destruction of JOHN BODGER & SONS COMPANY'S seed stocks before planting, or to any seed through fire, accident or other cause beyond seller's control, JOHN BODGER & SONS COMPANY shall be obliged to deliver, if at all, proportional quantities only, and, in any event, JOHN BODGER & SONS COMPANY shall have the right to reserve an amount of seed equal to that used in said planting.

Bags or containers will be charged at market value.

TERMS: F.O.B. California terminal, flower and vegetable seeds, 60 days net or 2 per cent discount for cash within 30 days from date of invoice. Beans, sight draft against bill of lading. All overdue accounts subject to sight draft without further notice.

NON WARRANTY. We give no warranty, express or implied, as to purity, description, quality, productiveness or any other matter of any seeds or bulbs we send out, and we will not be in any way responsible for the crop. We quote subject to immediate acceptance, stocks unsold, confirmation of orders, stenographic errors and omissions, delays and contingencies beyond our control.

If our goods are not accepted on these terms, we should be notified at once.

Our seeds have been selling on their merits for the past forty years, and by observing the steadily increasing demand for them, we believe they have given general satisfaction. We are always glad to receive comments of any kind from our customers, and will give the same our careful attention.
